VOL. XIX.

BUTLER, MISSOURI, THURSDAY, MARCH 7, 1907.

NO. 18

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh.

THE disease now known as 'grip' used to be called 'influenza.' It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines—religious, educational and secular.

In speaking of Peruna, Mr. Madison says:

"I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peruna was tried."

Healthy Mucous Membranes.

Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effective barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grip.

This in part explains why some people get the grip, while others do not.

The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peruna to be invaluable.

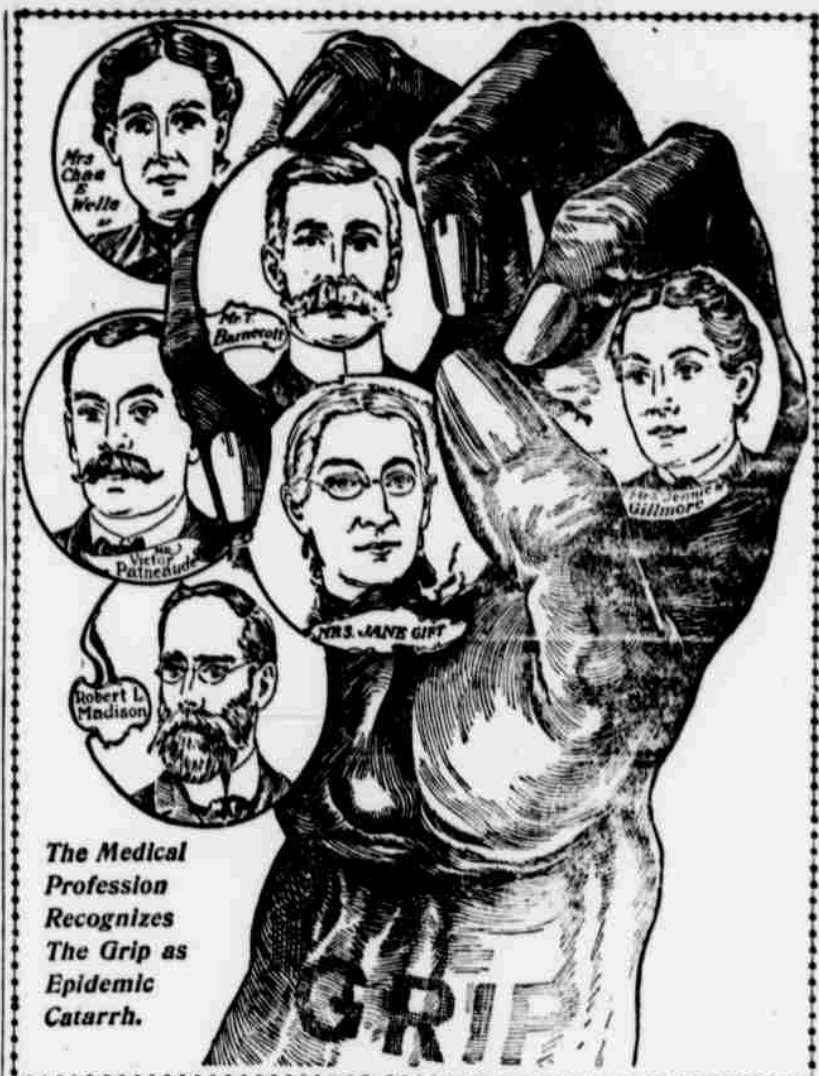

Systemic Catarrh, the Result of La Grippe. Pe-Ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh."

"The only thing I used was Peruna and Manalin, and I have been in better health the last three years than for years before."

"I give Peruna all the credit for my good health."

The Medical Profession Recognizes The Grip as Epidemic Catarrh.

During an epidemic of grip Peruna should be used. The doses recommended on the bottle are sufficient.

After the grip has once been acquired, Dr. Hartman recommends the use of Peruna in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peruna as a remedy for grip generally recover sooner and are less liable to the distressing and long-continued after-effects of the grip.

When Peruna has not been used during the course of the grip and the patient finds himself suffering from the after-effects of this disease, a course of Peruna should be resorted to.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patneaud, 323 Madison St., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work."

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again."

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system. My wife and I consider Peruna a household remedy."

Pneumonia Followed La Grippe.

Mr. T. Bancroft, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-Ru-na—A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe, I took Peruna and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes:

"Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peruna. My husband bought me a bottle of Peruna. I was soon able to do my work. I continued using it until I was cured."

Missouri Boys' Corn Growing Contest.

A mammoth boys' corn growing contest is being organized among the boys of Missouri for 1907. It is being conducted by the Missouri Corn Growers' Association in co-operation with the State Board of Agriculture and the Agricultural College at Columbia, and promises to be of great interest to every Missouri boy who has an opportunity to grow some corn during the coming year. A long list of prizes will be offered at the State Corn Show in January for which every boy in the contest can compete. There are no fees, no difficult requirements and every Missouri boy is eligible. In addition to the prizes at the State Show local tanks and merchants are offering prizes. One of these contests should be organized in every community where corn is the important crop.

There will be two classes of boys in this contest, the young men's class or those over 15 years and under 20 and in the boys' class or those 15 years old and under. The amount of corn to be grown in the young men's class is at least one acre and in the boys' class one-fourth acre. Corn for planting should be secured in the neighborhood if possible so that it will be well adapted to the soil and climate. Where good corn cannot be secured, however, the Agricultural College will supply corn of good quality to those who wish it. Several prominent corn breeders have also offered to give corn for this purpose.

All boys wishing to enter this contest or those wishing further particulars should address,

M. F. MILLER

Secretary Mo. Corn Growers' Association, Columbia, Missouri.

Salvador in the Fight Too.

Washington, March 4.—Official notices received by the State department are to the effect that the fighting in Central America has become more general, with Nicaragua bearing the brunt of a 3 cornered conflict. There has been constant fighting between the forces of Nicaragua and Honduras, in which Nicaragua is stated to have won the preliminary actions.

Great public enthusiasm exists in Nicaragua, particularly on account of the aggressions of Salvador, which is lending aid to Honduras. Nicaragua is preparing to resist this interference, which is interpreted here to mean that an invasion of Salvador is in prospect.

Guild's Revision Propaganda.

Washington, March 4.—Governor Guild of Massachusetts, the most active of all the Republican leaders in urging tariff revision in Congress, has sent a copy of his tariff letter to the President, to all the senators and representatives. Champ Clark replied to the Massachusetts governor in this language:

"I beg leave to suggest that you have just about as much chance to be translated in a chariot of fire as you have to secure tariff revision at the hands of the standpatters who now control the congressional machine. They are as deaf as posts to all appeals in that behalf."

Pet Dog a Mourner.

Trenton, N. J., March 4.—When Colonel Michael Hurley, City Councilman and member of the Democratic State Committee, was buried here his pet dog followed the hearse to St. Mary's Cathedral and sat howling outside the door of the edifice all through the services, defying efforts to keep him away. Then he followed the funeral cortege to the cemetery and sat staring at the grave until a member of the family caught him and took him home.

"I bought a fifty-cent bottle of Kodol and the benefit I received all the gold in Georgia could not buy. In three months I was well and hearty. May you live long and prosper."—C. N. Cornell, Roding, Ga., 1906. Kodol for dyspepsia is sold by Clay's drug store.

Roosevelt Spares Longworth's District.

Washington, March 4.—The nomination by the President of Amor Smith to be surveyor of Customs at Cincinnati removes from the list one of the places to which the President had in mind the possible appointment of a negro. The President still has under consideration the question of giving some well-known negro an office in Ohio.

The Cincinnati district is represented in Congress by Nicholas Longworth, the President's son-in-law and this may be the reason why he overlooked this opportunity to "put one over" on Foraker by appointing a negro.

DeWitt's Carbolicized Witch Hazel Salve undoubtedly the best relief for piles. Sold by Clay's drug store.

For Textbook Uniformity.

Jefferson City.—The committee substitute for nine textbook bills was passed by the house. This measure provides for county textbook uniformity and provides for the creation of a county textbook commission. Representative Lumpkin, of Pulaski county, assailed the bill by saying that it had been prepared by the School Book trust. He argued in favor of state supervision. The bill, however, was passed by a vote of 101 to 24.

To remove cough. Get at the cold which causes the cough. There is nothing so good as Kennedy's Laxative Cough Syrup. Sold by Clay's drug store.

To Aid Russia's Starving.

Washington, March 4.—Samuel D. Barrows, representing a committee appointed at a mass meeting held in New York last Friday, called up on the President and Secretary Root to urge action by this government to aid the famine-stricken Russians. The committee wants the President to issue a proclamation informing the American people of the extent of the famine and requesting them to give funds for relief.

DeWitt's Little Early Riser, sent for the glories of sick headache. Sold by Clay's drug store.

A Polish Plea to the Pope.

Posen, Prussian Poland, March 4.—A deputation of Poles has gone to Rome bearing a petition to the pope to which 180,000 signatures are attached, begging him to support the endeavors of the Poles to obtain from the Prussian government the restoration in the schools of religious instruction in the Polish language.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, because of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system. As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a day. Easy to take and easy.

Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then take it—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine.

This is the first question your doctor would ask. Are your bowels regular? He knows that daily action of the bowels is absolutely essential to recovery. Keep your liver active and your bowels regular by taking laxative doses of Ayer's Pills.

Made by J. C. Ayer & Co., Lowell, Mass. Also manufacturers of HAIR VIGOR, AND CURE, CHERRY PECTORAL. We have no secrets! We publish the formulas of all our medicines.

Filipinos Fear the Japs.

Manila, March 4.—There is a general surprise here among the Filipinos at the recent action of the United States Senate in defeating the amendment offered by Senator Culberson to the act establishing an agricultural bank in the Philippines, declaring the intention of the United States to abandon the islands as soon as a stable independent government should be established.

The Progressivists express satisfaction with the sentiment of the amendment, but deplore the time selected, in view of the Japanese war talk, which has caused excitement in the provinces surrounding Manila. In some instances the inhabitants left the towns and hid in the mountains. One town was depopulated recently by the exchange of salutes between warships, which caused the idea to spread that the Japanese were entering the bay.

Be very careful of your bowels when you have a cold. Nearly all other colds and cures are constipating, especially those containing opiates. Kennedy's Laxative Cough Syrup moves the bowels—contains no opiates. Sold by Clay's drug store.

Another Mutineer Caught.

Leavenworth, Kas. March 4.—Major R. W. McLaughry, warden of the United States penitentiary, received word of the detention in Portland, Ore., of James Seymour, one of the mutineers who escaped from the penitentiary November 7, 1901. Seymour is positively identified by photographs and Bertillon measurements, and William McLaughry will start at once for Portland to bring him in. Seymour will be tried in the federal courts for his part in the mutiny and probably will get a five year additional sentence.

All except four of the twenty six men who escaped have been shot or recaptured. Major McLaughry says he will get them all if he lives long enough.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga. did. She says: "Three bottles of Electric Bitters, cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can do all my work with ease and assist in my husband's store. Guaranteed at F. T. Clays, druggist. Price only 50c."

They Don't Want Peace.

Washington.—No response has been received either by Mexico or the United States to the second note calling upon Honduras and Nicaragua to submit their differences to arbitration. In the meantime an understanding has been reached between Mexico and United States that matters will be allowed to drift along for a few days in the hope that one side or the other may be induced to accept the offers of good offices for peace. Both appear to want war.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of Dr. H. H. Thatcher.

DR. J. W. NORRIS SPECIALIST. ON THE EYE, EAR, NOSE AND THROAT.

Gives special attention to the treatment of Catarrh and its effect upon the Ears, Throat and Lungs.

Those in need of Glasses can have the eyes tested free, and properly fitted.

Office on the South side, over Elmer Dixon's store.

Office hours from 9 a. m. to 4 p. m.

An Indian Territory joker is authority for the statement that the postmaster at Wild Cat is a negro. It is further stated that every time the postmaster gets enough mail to fill a mail sack he throws the pouch over his shoulder, strolls down to the depot, and paces the platform, waits for the train. When it arrives in sight, the postmaster announces in stentorian tones: "Hear ye, hear ye, hear ye. The honorable mail of the United States of Ameriky am about to go."

A small Kansas boy was called in to view his new born baby brother. He looked it over with dissatisfaction, and finally asked: "Mamma, where did this thing come from?"—"An angel brought it, Jimmie."—"Was you awake when he come?"—"Certainly, Jimmie."—"Well, then, mamma, all that I have got to say, is that you are dead easy. I'd like to see any old angel put off such a looking thing on me. But I reckon we are stuck unless I kin work Johnny Green to trade it sight unseen for one of his spotted pups."

For a New Statehouse.

Jefferson City, Feb.—Because there are so many demands for the money in the state treasury the chance of starting a new statehouse, as suggested by Governor Folk, out of the general fund has dwindled to almost an impossibility. For that reason a proposition to vote 5 million dollars in bonds to be redeemed out of the ordinary revenues will be introduced in both houses. The proposition will be in the form of a constitutional amendment providing that one half million dollars must be set aside every two years as a sinking fund to wipe out the bonds.

A Guaranteed Cure For Piles.

Itching, blind, bleeding, protruding piles. Druggists are authorized to refund money if PAZOINTMENT fails to cure in 6 to 14 days. 50c

The official board of the First Presbyterian church held a meeting Friday night to discuss the new church building. No details were gone into, further than the determination to build a thoroughly modern house of worship in the near future. The plans are crystallizing into shape and the building will be one of the best in any city of this size in the State. Another meeting will be held soon to elaborate the plans.—Clinton Democrat.

Nebraska Two-Cent Fares.

Lincoln, Neb., Feb. 25.—By a vote of 90 to 0 the house passed the 2 cent passenger fare bill. It now goes to the governor with the emergency clause and will be in effect as soon as he signs it.

Doctors Suspect Foul Play in Farmer's Death.

Galesburg, Ill., February 26.—At the inquest on the death of Frank McGrath, a prominent young farmer, whose body was found late Saturday night tangled up under his buggy, circumstances developed that indicate he may have been foully dealt with. Doctors who performed an autopsy swore the head injuries were probably the result of direct blows on the head rather than the effects of being dragged along the road by the runaway horse, as was at first supposed. It was shown the horse was gentle. Several witnesses swore to hearing loud and angry talking in the road and near the place where the ground was covered with footprints and indications that the buggy had been backed in several directions. McGrath's vest was found near by with the buttons torn off. Officers are still working on the case, but no arrests have been made.

An exchange says: Leading physicians now assert that rare meat is one of the most dangerous foods for a human being to eat, as it may contain the egg of a parasite. Unless meat is sufficiently cooked to kill the egg, it is taken into the stomach, where it immediately hatches and grows with an astonishing rate. Every particle of food should be thoroughly cooked.
